

6th Barcelona Meeting on Plastic Surgery

Barcelona, 2-4 March 2011

Fundació Doctor Robert UAB

Registration form. Registrations must be sent before 18/02/2011

Last name: _____ First name: _____
 Position: _____
 Organization: _____
 Personal address: _____
 City/Town: _____ Zip code: _____
 Country: _____ Telephone: _____
 Fax: _____ E-mail: _____

Registration fee: **650€** Specialists **475€** Residents **850€** On site

35€ Gala dinner should be paid at registration time

Payment method: **Bank transfer** Payee: **Fundació Doctor Robert**

Account number: **IBAN ES21-2013-0692-8702-0160-3055 - SWIFT CESCESBBXXX**

Specify your first name, last name and the name of the course you are registering for on the bank transfer

You can also pay by credit card (except American Express)

6th Barcelona Meeting on Plastic Surgery

Updating Head & Neck Surgery From functional reconstructive techniques to excellence in aesthetic outcomes

Barcelona, 2nd-4th March 2011
 Hospital de la Santa Creu i Sant Pau
 (Universitat Autònoma de Barcelona)

Faculty:

- | | |
|---------------------------|-----------------------|
| C. Angriniani (Argentina) | X. Leon (Spain) |
| J. Barret (Spain) | A. Marzetti (Italy) |
| L. Calabrese (Italy) | J. Masia (Spain) |
| P. Cavadas (Spain) | P. Neligan (USA) |
| E. Chiu (USA) | F. Perego (Italy) |
| B. Cornette (France) | M. Quer (Spain) |
| G. De Santis (Italy) | R. Serena (Spain) |
| J. Fontdevila (Spain) | S. Suominen (Finland) |
| H. Gassner (Germany) | TC. Teo (UK) |
| T. Gómez Cia (Spain) | C. Vega (Spain) |
| F. Kolb (France) | A. Verpaele (Belgium) |
| I. Koshima (Japan) | |

Head and neck reconstruction

8:00 – 8:30 h Registration

8:30 – 9:00 h

Welcoming remarks: *J. Masjà*

Morning lecture: Oncological principles of head and neck reconstruction (*M. Quer*)

9:00-14:00 h **Live surgery** (10:30-11:00 h Coffee break/ Exhibits)

- Rhinoplasty in cocaine injured nose (*M H. Gassner*)
- Mandibular reconstruction in severe irradiated patient (*F. Kolb*)
- MACS-lift rhytidectomy (*A. Verpaele*)

14:00 -15:00 h Lunch/ Exhibits

15:00 -16.30 h **Cervical reconstruction**

- Improving the deltopectoral flap: The internal mammary artery perforator flap. Discussion of the anatomic basis and indications. (*P. Neligan*)
- Cervical reconstruction with anterolateral thigh free flap. (*M H. Gassner*)
- Reconstructive methods for hypopharyngeal and cervical esophagus. The jejunal free-flap: Our surgical technique and how to solve the short- long term complications. (*F. Kolb*)
- Supraclavicular artery flap: a new option for pharyngeal reconstruction-VIDEO (*E. Chiu*)

16:30 -17:00 h Coffee break/ Exhibits

17:00 -18:30 h **Oral cavity reconstruction**

- Strategies in total lip reconstruction to improve shape and functional results. (*P. Neligan*)
- The musculo-mucosal facial artery flap (FAMM flap): Harvesting technique and versatility. Its use in oropharyngeal, intranasal and orbital defects. (*F. Kolb*)
- Oral floor complex three-dimensional reconstruction (*S. Suominen*)
- Microvascular free tissue transfer for tongue reconstruction. Functional assessment of radial forearm versus anterolateral thigh flap. (*L. Calabrese*)
- Supraclavicular artery island flap in oral reconstruction: Is there a role? (*E. Chiu*)

Crossfire debate on key points of cervical and oral cavity reconstruction
P. Neligan, M H. Gassner, S. Suominen, E. Chiu and *L. Calabrese*.

Thursday, March 3, 2011

Facial reconstruction and facial palsy

9:10 -10:30 h **Mandibular reconstruction**

- Should we reconstruct mandibular bone defects in the 21st century? (*A. Marzetti*)
- Mandibular reconstruction with osteocutaneous free flaps: How should we plan osteotomies? (*F. Kolb*)
- When to use iliac crest free flaps in mandibular reconstruction (*P. Neligan*)
- Technical, functional and aesthetic evolution after 20 years of jaw reconstruction with fibula flap (*G. De Santis*)

10:30 -11:00 h Coffee break/ Exhibits

11:00 -13:00 h **Reconstruction of midface defects**

- Preoperative planning of mid-facial reconstruction after maxillectomy. The importance of maxillary buttress reconstruction. How to improve the cosmetic results of complex facial defects (*G. De Santis*)
- Three-dimensional combined chimeric tissue transfer for reconstruction of complex facial defects following cancer ablation (*I. Koshima*)
- Practical local flaps for nose and lip reconstruction. What can we do when free tissue transfer is not possible? (*E. Chiu*)

Discussion of representative cases of mandibular and midface reconstruction: *G. De Santis, E. Chiu, A. Marzetti, F. Kolb,* and *I. Koshima*

13:00-15:00 h Lunch

15:00 - 16:30 h **Facial palsy**

- Dynamic facial palsy restoration. (*I. Koshima*)
- Alternative approach using the combined technique of nerve crossover and nerve cross-nerve grafting. A single stage procedure. (*S. Suominen*)
- A single stage nerve pedicle grafting technique using the great auricular nerve for reconstructing facial nerve defects. (*I. Koshima*)
- One stage versus two stage techniques in functioning free muscle transplantation. (*S. Suominen*)
- Suspension threads in facial palsy: indications and long term results. (*F. Perego*)

Crossfire debate on facial palsy techniques: *I. Koshima, S. Suominen* and *F. Perego*.

16:30-17:00 h Coffee break/ Exhibits

17:00 -18:30 h

Face transplant: Myths and realities.
Moderator: *P. Neligan*.

The Spanish experience: indications, pre-operative planning, outcomes and complications of cases performed in Spain:

First face transplant in Spain: *P. Cavadas*
Andalusian experience in face transplant: *T. Gomez Cia*
Full face transplant: organization, development and results. *J. Barret*

Friday, March 4, 2011

Aesthetic facial surgery

9:00 -11:00 h **Facelift techniques**

- MACS-lift short scar rhytidectomy: General principles and techniques: Can we achieve stable results beyond 5 years? (*A. Verpaele*)
- Vertical subperiosteal facelift: Can we achieve stable results beyond 5 years? (*B. Cornette*)
- Facial rejuvenation today: Why, when & how to combine the different techniques (*A. Verpaele*)
- Cervical rejuvenation: How important is platysma surgery? (*B. Cornette*)
- Suspension threads in facial, forehead and neck rejuvenation. (*F. Perego*)

11:00 -11:30 h Coffee break/ Exhibits

11:30-13:00 h **Rhinoplasty and otoplasty techniques**

- Open vs closed rhinoplasty. The expert's secrets on improving the results. (*B. Cornette*)
- Tips and tricks to manage caudal septum, columella, alae and valves. (*A. Marzetti*)
- Partial auricular reconstruction after tumor resection or traumatic amputation. (*TC. Teo*)
- Physiologic approach in aesthetic correction of ear deformities. (*TC. Teo*)

Keynote lecture: Establishing your branding: Communication, marketing and advertising. (*B. Cornette*)

13:00 -15:00 h Lunch

15:00 -16:30 h **Oculoplastic techniques**

- Lower lid rejuvenation: Fat resection vs. fat transposition Controversies about septum reconstruction (*B. Cornette*)
- Lower lid rejuvenation: How important is the lateral canthus? My canthopexy/canthoplasty technique. (*C. Angriniani*)
- Changing concepts in periorbital rejuvenation (*A. Verpaele*)

16:30 -17:00 h Coffee break/ Exhibits

17:00 -18:30 h **Non-invasive procedures in facial rejuvenation**

- Hyaluronic acids: anatomical selection, technique, volume, longevity and complications (*C. Angriniani*)
- Fat grafting role in facial rejuvenation. Should we systematically restore fat volume in facial rejuvenation surgery? (*J. Fontdevila*)
- Autologous fat grafting: will it replace fillers? (*S. Suominen*)
- Botulinum toxin A in forehead and periorbital: Surgery complement or replacement? (*R. Serena*)

Please note that this programme may be subject to change
