BBM
BARCELONA BREAST MEETING

IN SEARCH OF BREAST SURGERY EXCELLENCE
Sharing experience and building knowledge

Barcelona, 5 - 7 March 2014
Hospital de la Santa Creu i Sant Pau
(Universitat Autònoma de Barcelona)

FINAL PROGRAM

HOSPITAL DE LA SANTA CREU I SANT PAU
UNIVERSITAT AUTÒNOMA DE BARCELONA

Reconstructive Microsurgery European School
Course overview:

Dear colleagues,

After 15 years of providing highly successful educational courses on reconstructive and aesthetic surgery, the BBM has become an international reference for specialists from all around the world to share expertise and build knowledge. The excellent feedback from attendees at previous editions has encouraged us to continue and advance along these lines.

This year, the BBM is intended for plastic surgeons and residents wishing to update and advance their knowledge about the current management of complications and problems following reconstructive and aesthetic breast surgery. A distinguished international faculty will present assessment and management decisions in this setting.

Live surgery will be performed at Sant Pau Hospital and broadcast to the auditorium. This live broadcast of different new operative procedures allows participants to observe and interact with the surgeons conducting the operations. To make the live surgery session more active we will introduce a few teaching short videos with the best surgical tricks for avoiding problems in some difficult surgical techniques.

This year we have added the possibility for the participants to have complicated cases from their consultation commented on by the world renowned faculty. We have implemented a special application tool on our website where you can anonymously present a case, with pictures and text, so that we can select the most interesting cases in advance and decide who should comment on each one.

Last year we introduced the Q-interactive, an online tool that allows the audience to make questions on interesting aspects during the panels and discussions. Participants can tailor the meeting at their convenience, building knowledge following their needs.

The program will encourage lively discussion and promote interaction with the faculty, resulting in a highly educational experience.

It is a great pleasure for us to invite you to come and take part in this exciting and dynamic event in Barcelona.
08:00 – 08:30
Registration for BBM2014 and 3rd International Symposium on Lymphedema Surgical Treatment

08.30 – 08:45
Welcome (D. Chang / M.H. Cheng / J. Masia)

08:45 – 09:00
Morning lecture:
• Seven years of microlymphatic surgery: Where are we now? (Y. Demirtas)

09:00 – 10:30
Pathophysiology of lymphedema: current evidences
Coordinator: M.H. Cheng
Summarizer: K. Van Landuyt
• Lymphatic surgical anatomy. M Amore
• Lessons to learn from the lymphatic basic research. A. Saarikko
• Lipedema and Lymphoedema: similarities and differences. H. Brorson
• Breast cancer related lymphedema: pathophysiology. S. Suominen
• Filaria related lymphedema: pathophysiology. G. Manokaran

10:30 – 11:00
Coffee break

11:00 – 13:00
Pre-operative planning in lymphedema surgery
Coordinator: C. Becker
Summarizer: G. Felmerer
• Funtional assessment using lymphoscintigraphy. J. Dayan
• MR lymphangiography: what is the value in diagnosis of lymphedema. J.A. Clavero / X. Alomar
• The role of indocyanine green lymphography. T. Yamamoto
• How to interpret ICG lymphography? H. Suami
• Value and limits of preoperative planning in lymphatic surgery. P. Neligan
• Measurements and follow-up, searching the objective method to assess our outcomes. H. Brorson
• Secondary versus primary lymphedema: assessment and making surgical indications. D. Chang

13:00 – 14:30
Lunch Break

14:30 – 16:30
Surgical treatment of lymphedema update:
Coordinator: D. Chang
Summarizer: P. Neligan
• Minimal invasive lymphatic supermicrosurgery (MILS) for early-stage lymphedema. T. Yamamoto
• Free lymph node transfer I. C. Becker
• Vascularized lymph nodes flaps for lymphedema – Taiwan style. M.H. Cheng
• Autologous lymph vessel transplantation. R. Baumeister
• Lymph collector transplantation. G. Felmerer
• Liposuction for lymphedema. H. Brorson
• Fibro-Lipo-Lympho-Aspiration (FLLA): a lymph vessel sparing procedure for advanced stages of lymphedema. C. Campisi
• LYMPhA technique in the prevention of secondary lymphedema. F. Boccardo
• Multimodalities in treatment of upper and lower extremities lymphedema: 25 years experience. S. Moshref
• Filarial lymphedema treatment, a newer technique. G. Manokaran

16:30 – 17:00
Coffee break

17:00–17:45 Research in lymphedema treatment
Coordinator: R. Baumeister
Summarizer: H. Bronson
• Lymphosome Concept: Anatomical Studies for Translational Lymphatic Research. H. Suami
• Lymphatic vascular regrowth after lymph node transfer. A. Saarikko
• Limits on anatomical descriptions in the lymphatic system: the technique to study the morphological lymphatic disorders. M. Amore

17:45–18:30 Lymphedema surgery free papers
Coordinator: G. Pons and F. Boccardo
(Please, deliver the presentation to the organization in advance)

18:30 – 19:00
International Framework in Lymphedema Surgical Treatment (IFLST): 4-year working for a surgical consensus
BARCELONA BREAST MEETING

ORGANIZING COMMITTEE

BBM CHAIRMAN: Jaume Masià

BBM 2014 SECRETARY: Susana Lopez

LOCAL ORGANIZING COMMITTEE:

- Carmen Vega
- Gemma Pons
- Manuel Fernández
- Debora Bernardez
- Lidia Sánchez-Porro
- Mª Luisa Nardulli
- Paul Zamora
- Leyre Olivares
- David Jasso
- Elena Rodríguez Bauza

WORLD-RENOWED FACULTY

- CHRIST ANDREE (Germany)
- CLAUDIO ANGRIGIANI (Argentina)
- GIOVANNI BOTTI (Italy)
- SIMON CAWTHORN (UK)
- DAVID CHANG (USA)
- CAROLINA ESTEFAM (Spain)
- JIAN FARHADI (UK)
- JAUME GARCÍA (Spain)
- CRISTINA GARUSI (Italy)
- GARRICK GEORGEU (Spain)
- MARCOS GONZÁLEZ (UK)
- MOUSTAPHA HAMDI (Belgium)
- STEFAN O.P. HOFER (Canada)
- ROGER KHOURI (USA)
- NICOLAS LEYMARIE (France)
- ERNST MAGNUS NOAH (Germany)
- STEVEN MCCULLEY (UK)
- MAURIZIO NAVA (Italy)
- NIKOLAOS PAPADOPULOS (Germany)
- JULIE PARK (USA)
- STEPHANO POMPEI (Italy)
- ALBERTO RANCATI (Argentina)
- KOEN VAN LANDUYT (Belgium)
- ERIC SANTAMARIA (Mexico)
- BENJAMIN SARFATI (France)
- SINIKKA SUOMINEN (Finland)

Sharing experience and building knowledge
Debating the choices in breast surgery

07:30 - 08:15 Optional Instructional Course
ICO – technology: present and future
- Preoperative Assessment on Lymphedema Surgery (real patient assessment). T. Yamamoto
- ICG-angiography in immediate breast reconstruction. G. Pons
- ICG defining perforator vascular boundaries. P. Neligan

08:00 - 08:15 Registration for BBM2014

08:30 - 09:00 Opening keynote lecture: Future and controversies in breast reconstruction. M. Hamdi

09:00 - 10:00 Immediate breast reconstruction:
- Moderator: E. Santamaria
- Mastectomy incision options: best planning for optimal outcome. M. Nava
- Management of partial flap necrosis in autologous tissue breast reconstruction. S. Hofer
- Morbidity of microsurgical breast reconstruction in patients with co-morbid conditions. C. Andreé
- Autologous tissue breast reconstruction with insufficient tissue: Algorithms for bipedicled abdominal flaps and implant enhancement. S. Hofer
- Suffering DIEP flap: tertiary revision surgery or planning a new flap? D. Chang
- Autologous fat grafting: sole means of breast reconstruction or useful adjunct to vascular tissue transfer? R. Khouri
- Breast Reshaping Options? Quadrant by quadrant approach. A. Rancati
- Cancer recurrence after microsurgical breast reconstruction: what can I do? M. Noah
- Human Adipose Stromal Cells for Cell Therapy: Preliminary findings in the Lab. N. Papadopulos

10:00 - 12:00 LIVE SURGERY SESSION:
- Power assisted liposuction for advanced lymphedema with H. Bronson
- RAFT (Reverse Abdominoplasty with Fat Transfer) for breast reconstruction. R. Khouri

12:00 - 13:00 Lunch break

13:00 - 14:30 AUTOLOGOUS BREAST RECONSTRUCTION
- Coordinator: S. Suominen
- Summarizer: K. Van Landuyt
- Crying for help: when mastectomy flaps develop necrosis. J. Farhadi
- One stage breast reconstruction: when and what to do for avoiding poor outcomes. C. Andreé

14:30 - 16:00 IMPLANT BREAST RECONSTRUCTION
- Coordinator: C. Garusi
- Summarizer: N. Papadopulos
- Patient’s evaluation and techniques’ indication in secondary breast reconstruction. A. Rancati
- Limiting complications in implant based breast reconstruction: What do we need to know? S. Hofer
- Evaluation of a novel technique in breast reconstruction with a new shaped ADM (Braxon®), S. Catkhorn
- The use of implants and fat in revisionary autologous breast reconstruction J. Farhadi
- The role of polyurethane implants in revisional breast reconstruction. S. Pompei
- How to maintain long term result after unilateral breast reconstruction with implants M. Nava
- Advantages and Disadvantages of Preoperative Breast Expansion prior to Fat Grafting. R. Khouri
- Can synthetic meshes have a role in revisional breast recontouring? S. Pompei

16:30 - 18:30 KEYNOTE Lectures:
- Maximizing Aesthetics in Reconstructive Breast Surgery M. Nava
- Identical twin breast transplantation J. Park

21:00 Networking dinner. (Dress code: smart casual)
FRIDAY 7TH MARCH 2014:

08:00 - 09:15: Optional Instructional Course: Practice Management:
- How to build and manage your e-reputation M. González
- How to run a successful aesthetic breast practice G. Botti
- Identifying Problematic Patients A. Rancati
- 3D Imaging: Enhancing the breast consultation J. García
- How to enhance your private practice in breast surgery: crisis period new opportunities C. Estefan

09:30 - 11:00: BREAST ENLARGEMENT
Coordinator: S. Suominen
Summarizer: S. McCulley
- Revising the Deteriorating Breast Augmentation Patient. G. Botti
- Implant repositioning in cases of bottoming out. M. Noah
- Management of Ripping in Aesthetic Surgery. E. Santamaria
- Recurrent capsular contracture. C. Angrigiani
- How to choose the right implant according to the patient wishes and anatomical features. M. Nava
- Use of Asymmetrical Implants for the Correction of Breast Asymmetry. S. McCulley
- Murphy law in breast augmentation. M. Noah

11:00 - 11:30: BREAST REDUCTION /MASTOPEXY
Coordinator: C. Angrigiani
Summarizer: J. Farhadi
- New trends in mastopexy. Scarless mastopexy, myth or reality. M. Hamdi
- Composite aesthetic breast reconstruction in the ptotic breast: how to combine implant, mastopexy and fat? A. Rancati
- Complications after reduction mammoplasty: Tricks to treat suffering nipple areola complex and scar revision. C. Garusi
- Mastopexy Augmentation - The Real Requirements for Optimal Patient Outcomes. G. Botti
- Loss of projection in mastopexy, how to avoid it. S. McCulley
- Nipple areola displacement . M. Hamdi

11:30 - 13:00: Flexible Instructional Course:
- How to build and manage your e-reputation M. González
- How to run a successful aesthetic breast practice G. Botti
- Identifying Problematic Patients A. Rancati
- 3D Imaging: Enhancing the breast consultation J. García
- How to enhance your private practice in breast surgery: crisis period new opportunities C. Estefan

13:00 - 14:30: Lunch break

14:30 - 16:00: SECONDARY AESTHETIC BREAST SURGERY
Coordinator: S. Suominen
Summarizer: M Noah
- Use of Matrices in revisional aesthetic surgery. J. Farhadi
- What to do when you hear: “Gee, I wish I had gone bigger.” E. Santamaria
- Silent rupture in breast implants- When does it happen? S. McCulley
- RAFT technique: improving outcomes in secondary breast surgery. R. Khouri
- Quality of life after breast surgery. N. Papadopulos
- Polyurethane conical implants: An uplifting augmentation. G. Georgeu
- Negative-pressure wound therapy: the new device to improve final breast scars. S.Lopez

16:00 - 17:00: LEARNING FROM THE MASTERS: HOW I SOLVE MY WORST CASE - TRICKS AND TIPS TO TAKE HOME
Moderator: C. Angrigiani
S. McCulley, G. Botti, R. Khouri, M. Noah, S. Pompei and J. Farhadi

17:00 - 18:30: PROBLEM CASES and FREE PAPERS from the Audience
Coordinator: S. Suominen and J. Farhadi
(Please, deliver the presentation to the organization in advance)

18:30 - 19:00: "REVISIONAL AESTHETIC BREAST SURGERY": Day remarks and potential consensus points E. Santamaria

19:00: Adjournment J. Masia

FRIDAY 7TH MARCH 2014: An international interdisciplinary approach
